Put our Bidder Power

to work for you!

When you're looking for a way to sell at the highest possible price, put our bidder power to work. Consignors to Steve Ivy Numismatic Auctions enjoy a large and loyal active buying audience that participates in each and every sale. It is because of the thousands of collectors who buy from our auctions, that allow you to receive the highest possible prices.

How we help you get top prices.

Anyone can claim to get the highest prices for your coins. At Steve Ivy Numismatic Auctions, Inc., we provide the services that make it possible for you to get the highest prices for your coins. We help you get the highest possible prices for your coins by reaching the greatest number of potential buyers through these proven ways:

National Advertisements and publicity. Our extensive national advertisements and publicity in publications such as *Coin World*, *The Numismatist* and *Numismatic News* increase the number of mail and floor bidders to give you more prospective buyers.

Pre-auction display of coins. Your coins are displayed at major shows and conventions prior to our auction. By offering potential buyers the opportunity to personally see your coins, we increase the chances of your coins attracting more bidders.

Full-color catalogs. Each of our catalogs is filled with crystal-clear, full-color photographs and detailed descriptions of accurately graded coins. Approximately one month after the consignment deadline, the catalog featuring your coins is mailed first-class to our national audience of prospective buyers. The catalogs also are distributed at major coin conventions. By showing your coins at their best and to the top buyers in the country, we insure that they will bring the best possible prices.

Loyal buying audience. By creating the best possible environment for both the buyer and the seller and by conducting well organized and efficient sales, we maintain a loyal buying audience of floor bidders and mail bidders. This increases your chances of

receiving the highest possible prices for your coins.

You'll enjoy the best services available.

No-obligation pre-grading and evaluations. Within 48 hours of receiving your coins, one of our professional numismatists will call to inform you of your coins' grades and to provide an accurate estimate of prices your coins will bring. Once you decide to consign your coins to our auction, you can feel confident that your coins will receive their full market value because our services lessen the chances of surprise.

You get your money when you need it.

We offer generous cash advances that provide you with your money when you need it. As soon as you decide to consign your coins, we can offer you a cash advance of up to 50 percent of the estimated value of your consignment.

Your coins are not tied up for a long period of time.

We give you the shortest time period from consignment deadline to your payment among the major coin auction firms. This means your coins are not tied up for a long time. We can do this because we produce our catalogs in-house, including

photography and descriptions written by our professional numismatists. This results in your getting your money faster.

You get results — immediately.

Within hours of our auction, you know what your coins brought. Our speedy service lets you know how much your coins brought. Simply call our office, toll free at 1-800-527-9250, the day after the sale to get results. Three days after the sale, we send you a letter advising you of prices realized.
